

YAMAHA YV112 SMT Machine X-Axis Ball Screw

This precision-engineered ball screw is designed for the X-axis of YAMAHA YV112 SMT machines. It ensures the accurate and reliable movement necessary for optimal component placement.

Product Overview

Precision X-Axis Component

This high-precision ball screw is specifically engineered for use in SMT placement equipment, ensuring accurate and reliable motion control for the X-axis. Designed to meet rigorous industry requirements, it facilitates seamless movement and consistent operational performance during the component assembly process. Its durable construction is built to withstand the demands of continuous high-speed industrial manufacturing environments.

Compatibility Details

Compatible Series	YV112, YV100II, YV100X
-------------------	------------------------

Part Identification

Item Status
Original New

Technical Reference

Associated Axis Motors

Part Number	Application
90K55-87134X	YV100II Axis-X
90K55-8A134Y	YV100II Axis-Y
90K52-87174X	YV100X Axis-X
90K52-8A174Y	YV100X Axis-Y
