

Yellow Rectangular Electronic Component

This is a yellow rectangular electronic component. It features a square cutout on its top surface.

Product Overview

Versatile Electronic Component

This yellow rectangular component is designed for seamless integration into various electronic or peripheral systems. Featuring a distinctive square cutout on the top surface, it is engineered for precise mounting and reliable operation within professional assemblies. Its compact form factor makes it an ideal solution for specialized hardware projects.

Physical Specifications

Form Factor	Rectangular
Color	Yellow
Structural Features	Square Cutout, Top-Surface Access
