

# Yellow Waterproof Rain Suit with Hood

This yellow rain suit includes a hooded jacket and elastic-waist pants. Constructed from waterproof material, it provides protection from rain and moisture.

## ADDITIONAL IMAGES

## Product Overview

### Professional Weather Protection

This durable yellow rain suit is designed for reliable protection against minor weather risks in outdoor work environments. Constructed from 100% polyester with a PVC coating, it offers a waterproof barrier that keeps the wearer dry during wet conditions. The set includes a jacket with a non-detachable hood and practical features like underarm vents and adjustable cuffs for added comfort.

## Technical Specifications

- Adjustable cuffs with snaps

## Care & Usage

### Important Usage Instructions

Designed for minor weather risks, this suit should not be used in extreme or exceptional weather conditions. For optimal protection, the jacket and trousers must be worn together and kept closed during use. Always inspect the garment for wear or dirt before use, as damaged clothing may be less effective.

### Storage Conditions

Store in original packaging in a dark, dry place at ambient temperature.
