

YS24 Head I/O Board for SMT Placement Machines

This I/O board is designed for Yamaha YS24 SMT placement machines. It facilitates communication and control within the machine's head unit.

Product Overview

Head I/O Control Solution

This high-performance Head I/O Board is engineered specifically for SMT placement equipment, ensuring seamless communication and precise control within the machine's head unit. Designed to meet the rigorous demands of modern assembly environments, it serves as a critical component for maintaining consistent and efficient component placement. This replacement part provides reliable functionality to optimize machine performance and uptime.

Identification

Condition

Original • New

Part Number

KKE-M4571-000

Compatibility

Supported Machine Series

YS24, YV100II, YV100X, YG200, YG100, YG100R
