

Zinc-Plated Steel Quick Link

This zinc-plated steel quick link is designed for creating temporary or permanent connections in chain systems. It allows for easy assembly and disassembly without the need for specialized tools and is suitable for light-duty applications.

Product Overview

Versatile Chain Connector

This zinc-plated steel quick link is an essential component for creating secure, detachable connections in chain, rope, and cable systems. Designed for ease of use, it allows for quick assembly and disassembly without the need for specialized tools. It is an ideal solution for light-duty applications, repairs, and general utility tasks where a flexible connection point is required.

Technical Specifications

Safety Note

Not for overhead lifting

Material & Finish

Zinc-Plated Steel

Application Type

Light-duty, Temporary connection, Permanent connection, Chain systems, Rope systems, Cable systems

Assembly Requirement

Tool-free assembly
