Product Overview

High-Performance Abrasive Solution

This premium zirconium oxide flap disc is engineered for high stock removal rates and exceptional durability across various industrial applications. Utilizing German raw materials, the disc offers high grinding efficiency and extended useful life even under minimal contact pressure. It is an ideal choice for professional-grade grinding, edge finishing, and weld seam blending on demanding surfaces.

Technical Specifications

Maximum Speed

13300 RPM
Max RPM

80 m/s
Peripheral Speed

Grit Size	240
Diameter	115 mm
Arbor Hole	22.23 mm

Compatibility & Safety

Compliance

EN 13743

Operational Warnings

- Always use a safety guard
- Wear eye protection during operation

Compatible Materials

Stainless Steel, Carbon Steel, Inox Alloys, Aluminum
